INFOCOMP VOLUME 7 - N. 1 - March 2008

Building Adaptive Language Systems.....	01
Ján Kollár, Jaroslav Porubán	
Checking Satisfiability of Tree Pattern Queries for Active XML Documents.....	11
Hai-Tao Ma, Zhong-Xiao Hao, Yan Zhu	
A Framework for Reengineering Web Applications to Web Services.....	19
Bouchiha Djelloul, Malki Mimoun, Mostefai Abd El Kader	
Evaluation and Comparison of Concept Based and N-Grams Based Text Clustering Using SOM.....	27
Abdelmalek Amine, Zakaria Elberrichi, Michel Simonet, Mimoun Malki	
Hybrid Particle Swarm Optimiser using Multi-Neighborhood Topologies.....	36
S. A. Hamdan	
Using Low-Interaction Honeypots to Study the Abuse of Open Proxies to Send Spam.....	45
Klaus Steding-Jessen, Nandamudi L. Vijaykumar, Antonio Montes	
Constraint Logic Programming Applied to the Resolution of a Problem of picking of Warehouse.....	54
Sigmundo P. Junior, Claudio C. de Sá, Fernando D. Sasse	
Framework for Mobile Grid Environments based on Semantic Integration of Ontologies and Workflow-based Applications.....	60
A. P. C. Silva, V. C. M. Borges, M. A. R. Dantas	
SLEad: Electronic Tongue Data Analysis System.....	70
Bruno B. Bergamo, Rogério E. Garcia, José A. Giacometti	
A Distributed Reactive Synchronous Programming Language.....	80
Giovani R. Librelotto, Jonas B. Gassen, Rogério C. Turchetti, Simão S. Toscani	
HIDEF: a Data Exchange Format for Information Collected in Honeypots and Honeynets.....	87
Cristine Hoepers, Nandamudi L. Vijaykumar, Antonio Montes
